Professional Overview

Colleen Hui is a law clerk at COJK who devotes her time to drafting patent applications for innovations in the fields of biochemistry, and chemical, molecular, and structural biology.

Colleen earned her doctorate in biochemistry, molecular and structure biology from the University of California, Los Angeles, where she worked as a graduate student researcher in the university's Merchant Lab of the Department of Chemistry & Biochemistry. She has a master's degree in biochemistry and molecular biology from Oregon Health & Science University, where she was a graduate student researcher. Colleen also served as a graduate scholar at Lawrence Livermore National Laboratory, and as a research assistant at the U.S. Department of Agriculture's chief scientific in-house research agency, the Agricultural Research Service, at the Western Regional Research Center in Albany, California.

Colleen is a 3L student at Lewis & Clark Law School, where she is pursuing a certificate in intellectual property law and serves as treasurer of the Intellectual Property Student Organization. She is also a member of the Asian Pacific American Law Student Association. Colleen is multilingual, speaking native English, Mandarin, and Cantonese.
